

Origin Materials, Inc. Reports Financial Results for First Quarter 2023

May 10, 2023

- Origin 1 On-Track to Start-Up in Q2 2023, In-line with Prior Guidance -

- Origin 2 Front-End Design, Construction Planning, and Financing Progressing -

 Announced Strategic Partnerships with Indorama Ventures to Accelerate Mass Production of Bio-Based Materials and SCGP to Explore Licensing Origin Technology for Asia-Based Plant –

- Maintains 2023 Revenue and Adjusted EBITDA Outlook -

WEST SACRAMENTO, Calif.--(BUSINESS WIRE)--May 10, 2023-- Origin Materials, Inc. ("Origin," "Origin Materials," or the "Company") (Nasdaq: ORGN, ORGNW), the world's leading carbon negative materials company with a mission to enable the world's transition to sustainable materials, today announced financial results for its first quarter ended March 31, 2023.

"In the first quarter, the Origin team continued to execute on our mission to enable the world's transition to sustainable materials. At our first commercial plant, Origin 1, we remain on track for a Q2 start-up with work onsite continuing and strong progress being made in plant commissioning and supply chain activation. For Origin 2, front-end design, construction planning, and financing are progressing, and we expect to provide an update during our Q2 earnings call in August. We were excited to announce new and expanded strategic partnerships and initiatives with Indorama Ventures, SCGP, Hyosung, and Minafin Group, complementing our existing relationships and initiatives with industry leaders and further validating the efficacy of our technology platform and business model. We were also pleased to make our first announcement of a potential Origin technology licensing agreement which we are exploring with SCGP, a leading multinational consumer packaging solutions provider. Finally, we strengthened our Board with the appointment of Craig Rogerson and Tony Tripeny, two new world class directors, who bring a wealth of chemicals industry executive experience. We would also like to thank Benno Dorer, who stepped down from the Board on May 8th, for his contributions. Looking ahead, the demand for 'net zero'-enabling materials remains strong as the world moves aggressively to a zero-carbon future, and we remain focused on developing the commercial and supply chain capabilities necessary to begin delivering product to our customers," said Rich Riley, Co-Chief Executive Officer of Origin.

Key Company First Quarter and Recent Business Highlights

Origin Materials reported quarterly revenue of \$1.7 million generated by joint development agreements and the Company's supply chain activation program, with total signed offtake agreements and capacity reservations in excess of \$9.3 billion. As of February 2023, Origin Materials' commercial strategy has evolved from demand generation to revenue generation and the development of higher margin products, and as such the Company does not plan to provide quarterly updates to its total signed offtake agreements and capacity agreements but will provide updates as appropriate. The Company also implemented new and expanded partnerships and customer relationships, including:

- Partnership with Indorama Ventures, the world's largest producer of virgin and recycled PET resins, to accelerate the mass production of bio-based materials. The Companies have signed a memorandum of understanding ("MOU") to explore initiatives related to the rapid commercialization of low-carbon, bio-based materials. The initiatives to be explored include converting an Indorama Ventures U.S. facility into a bio-based materials plant and producing samples for use in limited-volume product launches with high-profile brands.
- <u>Partnership with SCGP</u>, a leading multinational consumer packaging solutions provider, to explore licensing Origin technology for an Asia-based plant. The companies have signed a joint development agreement ("JDA") to explore licensing Origin technology in an Asia-based facility owned by SCGP, with testing of eucalyptus feedstock underway targeting applications in food packaging, logistics, automotive, and construction.
- <u>Partnership with Hyosung Advanced Materials</u>, a Korea-based industrial materials company, to produce batteries, automotive parts, and apparel from carbon-negative materials. As part of the strategic partnership, Hyosung signed a multi-year capacity reservation agreement with Origin Materials.
- Expanded partnership with Green Chemistry Division of the Minafin Group, a global fine chemical company, to launch a manufacturing initiative for Origin 1, Origin's first commercial plant. As part of the manufacturing initiative, CMF (chloromethylfurfural) produced by Origin at Origin 1 will be delivered to Minafin, which will convert CMF into downstream intermediates and products. The initiative expands on the companies' previously announced strategic partnership to industrialize sustainable chemicals.
- Amended existing agreement with PepsiCo to increase flexibility by expanding the slate of products that may be supplied as well as which plants may supply those products, with final volumes, product mix, and plants to be as mutually agreed upon.

Additional first quarter and recent business highlights include:

Origin's Sustainable Carbon Black Blends Meet or Exceed Fossil-Based N660 Performance for Tires and Mechanical

<u>Rubber Goods</u>. Bench-scale results validate Origin's carbon black as a high-performance bio-based tire filler that can be blended into mechanical rubber goods and automotive applications.

Origin Materials Announces Two New Appointments to Board of Directors. New directors bring wealth of experience in
operations, strategy, corporate finance, and M&A across the chemicals and materials science industries.

Origin 1 and Origin 2 Financing and Construction Update

Origin 1, the Company's first commercial manufacturing plant, located in Sarnia, Ontario, is mechanically complete, in-line with the previously disclosed timeline, with completion of plant commissioning and start-up expected in Q2 2023. Work onsite continues with strong progress on plant commissioning and supply chain activation. Following start-up, Origin 1 is expected to enable customers to qualify products and applications beyond PET and to begin to address customer demand for the Company's renewable materials. During the first quarter, the Company continued to strengthen its operations leadership, including hiring its director of manufacturing.

For Origin 2, the Company continues to make progress on front-end design, construction planning, and financing. The Company has also made progress developing new products and applications that may be incorporated into the design of the plant, including FDCA, PEF, and biofuels. The Company expects to provide an update on new product offerings and construction plans for the Origin 2 plant in August 2023.

In January, Origin announced that the Louisiana State Bond Commission unanimously passed a resolution granting its final approval of the issuance of up to \$1.5 billion of tax-exempt bonds to support construction and commissioning of Origin 2. This amount is inclusive of and builds on the strong foundation of the previously announced expected \$400 million in Private Activity Bond ("PAB") volume cap allocation. Origin's use of solid waste feedstock to produce carbon negative materials enables the Company to use these tax-exempt bonds towards financing the Origin 2 project. Bank of America, a global investment bank and financial services company, has been engaged by Origin to underwrite the bonds and market them to investors, which could enable the debt financing of Origin 2 using entirely tax-exempt bonds.

Origin also continues to work with leading financial institutions on other forms of traditional private financing and federal loan programs, including through the United States Department of Agriculture and Department of Energy, and to pursue other local, state, and federal incentives programs to optimize the financing of Origin 2, including certain 2021 Infrastructure Investment and Jobs Act and 2022 Inflation Reduction Act provisions. The Company continues to expect that Origin 2 can be fully funded from a combination of existing cash on hand, previously indicated traditional project financing, and potential strategic partnerships. Given Origin's ongoing global technology licensing effort and an active governmental affairs team, the Company anticipates strategic partnerships and federal incentives programs to play a meaningful role in the financing of Origin 2.

Results for First Quarter 2023

Cash, cash equivalents and marketable securities were \$263.9 million as of March 31, 2023. A meaningful portion of Q1 cash expenditures were related to the completion of Origin 1 and are therefore non-recurring.

Revenue for the first quarter was \$1.7 million compared to zero in the prior-year period.

Operating expenses for the first quarter were \$13.0 million compared to \$7.6 million in the prior-year period.

Net income was \$9.8 million for the first quarter compared to net income of \$7.3 million in the prior-year period.

Adjusted EBITDA loss was \$9.7 million for the first quarter compared to a loss of \$6.5 million in the prior-year period.

Shares outstanding as of March 31, 2023 were 143.3 million including 4.5 million shares held by a certain stockholder that are subject to forfeiture based on share price performance targets previously disclosed in our filings.

Full Year 2023 Outlook

Based on current business conditions, business trends and other factors, the Company is maintaining the following guidance for revenue and Adjusted EBITDA for fiscal year 2023:

- Revenue of \$40 million to \$60 million
- Adjusted EBITDA loss of \$50 million to \$60 million

For a reconciliation of a non-GAAP figure to the applicable GAAP figure, please see the table captioned 'Reconciliation of GAAP and Non-GAAP Results' set forth at the end of this press release. These expectations do not consider, or give effect to, among other things, unforeseen events, including changes in global economic conditions.

Webcast and Conference Call Information

Company management will host a webcast and conference call on May 10, 2023, at 5:00 p.m. Eastern Time, to discuss the Company's financial results.

Interested investors and other parties can listen to a webcast of the live conference call and access the Company's first quarter update presentation by logging onto the Investor Relations section of the Company's website at https://investors.originmaterials.com/.

The conference call can be accessed live over the phone by dialing 1-855-327-6837 (domestic) or +1-631-891-4304 (international). A telephonic replay will be available approximately two hours after the call by dialing 1-844-512-2921, or for international callers, +1-412-317-6671. The conference ID for the live call and pin number for the replay is 10021507. The replay will be available until 11:59 p.m. Eastern Time on May 17, 2023.

About Origin Materials, Inc.

Headquartered in West Sacramento, Origin Materials is the world's leading carbon negative materials company. Origin's mission is to enable the world's transition to sustainable materials. For over a decade, Origin has developed a platform for turning the carbon found in inexpensive, plentiful,

non-food biomass such as sustainable wood residues into useful materials while capturing carbon in the process. Origin's patented technology platform can help revolutionize the production of a wide range of end products, including clothing, textiles, plastics, packaging, car parts, tires, carpeting, toys, fuels, and more with a ~\$1 trillion addressable market. In addition, Origin's technology platform is expected to provide stable pricing largely decoupled from the petroleum supply chain, which is exposed to more volatility than supply chains based on sustainable wood residues. Origin's patented drop-in core technology, economics and carbon impact are supported by a growing list of major global customers and investors. For more information, visit www.originmaterials.com.

Non-GAAP Financial Information

To supplement the Company's financial results presented in accordance with generally accepted accounting principles in the United States ("U.S. GAAP"), the Company also uses non-GAAP financial measures, including Adjusted EBITDA, as supplemental measures to review and assess the Company's operating performance. Adjusted EBITDA is defined as net income or loss adjusted for (i) stock-based compensation expense, (ii) depreciation and amortization, (iii) interest income, (iv) change in fair value of derivative, (v) change in fair value of warrants liability, (vi) change in fair value of earnout liability, (vii) other income, net. The Company believes that these non-GAAP financial measures provide useful information about the Company's operating results, enhance the overall understanding of the Company's past performance and future prospects and allow for greater visibility with respect to key metrics used by the Company's management in its financial and operational decision-making.

Non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tools, and when assessing the Company's operating performance, investors should not consider them in isolation. In addition, calculations of this non-GAAP financial information may be different from calculations used by other companies, and therefore comparability may be limited.

The Company mitigates these limitations by reconciling the non-GAAP financial measures to the most comparable U.S. GAAP performance measures, all of which should be considered when evaluating our performance.

The Company is unable to reconcile forward-looking Adjusted EBITDA information provided in this press release to net income, the most closely comparable U.S. GAAP financial measure, without unreasonable efforts. The Company is currently unable to predict with a reasonable degree of certainty the type and extent of certain items expected to impact net income in the future but not expected to impact forward-looking Adjusted EBITDA. These include, among other things, stock-based compensation expense, depreciation and amortization, interest income, and interest expense, which are inherently unpredictable. The Company currently expects to continue to exclude these items in future disclosures of any forward-looking Adjusted EBITDA and may also exclude other items that may arise. Information related to these items, which is unavailable at this time, could have a significant impact on the Company's U.S. GAAP net income.

For more information on this non-GAAP financial measure, please see the table captioned "Reconciliation of GAAP and Non-GAAP Results" set forth at the end of this press release.

Cautionary Note on Forward-Looking Statements

This press release contains certain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements generally are accompanied by words such as "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect," "should," "would," "plan," "predict," "potential," "seem," "seek," "future," "outlook," and similar expressions that predict or indicate future events or trends or that are not statements of historical matters. These forward-looking statements include, but are not limited to, statements regarding Origin Materials' business strategy, estimated total addressable market, anticipated synergies from partnerships, access to financing sources, budget and timelines for Origin 1 and Origin 2, anticipated benefits of and demand for our potential products and platform, ability to convert capacity reservations and offtake agreements into revenue, commercial and operating plans, product development plans and announcements of such plans, anticipated growth and projected financial information and ability to realize the anticipated benefits of any partnerships discussed in the press release. These statements are based on various assumptions, whether or not identified in this press release, and on the current expectations of the management of Origin Materials and are not predictions of actual performance. These forward-looking statements are provided for illustrative purposes only and are not intended to serve as, and must not be relied on as, a guarantee, an assurance, a prediction, or a definitive statement of fact or probability. Actual events and circumstances are difficult or impossible to predict and will differ from assumptions. Many actual events and circumstances are beyond the control of Origin Materials. These forward-looking statements are subject to a number of risks and uncertainties, including that Origin Materials may be unable to successfully commercialize its products; the effects of competition on Origin Materials' business; the uncertainty of the projected financial information with respect to Origin; disruptions and other impacts to Origin's business as a result of outbreaks such as the COVID-19 pandemic, Russia's military intervention in Ukraine, the impact of severe weather events, and other global health or economic crises; changes in customer demand; and those factors discussed in the Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission on February 23, 2023, as amended April 28, 2023, under the heading "Risk Factors," and other documents Origin Materials has filed, or will file, with the SEC. If any of these risks materialize or our assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. There may be additional risks that Origin Materials presently does not know, or that Origin Materials currently believes are immaterial, that could also cause actual results to differ from those contained in the forward-looking statements. In addition, forward-looking statements reflect Origin Materials' expectations, plans, or forecasts of future events and views as of the date of this press release. Origin Materials anticipates that subsequent events and developments will cause its assessments to change. However, while Origin Materials may elect to update these forward-looking statements at some point in the future, Origin Materials specifically disclaim any obligation to do so. These forward-looking statements should not be relied upon as representing Origin Materials' assessments of any date subsequent to the date of this press release. Accordingly, undue reliance should not be placed upon the forward-looking statements.

Reconciliation of GAAP and Non-GAAP Results

We believe that the presentation of Adjusted Earnings before Interest, Taxes, Depreciation, and Amortization (Adjusted EBITDA) is appropriate to

provide additional information to investors about our operating profitability adjusted for certain non-cash items, non-routine items that we do not expect to continue at the same level in the future, as well as other items that are not core to our operations. Further, we believe Adjusted EBITDA provides a meaningful measure of operating profitability because we use it for evaluating our business performance, making budgeting decisions, and comparing our performance against that of other peer companies using similar measures.

We define Adjusted EBITDA as net income or loss adjusted for (i) stock-based compensation expense, (ii) depreciation and amortization, (iii) interest income, (iv) change in fair value of derivative, (v) change in fair value of warrants liability, (vi) change in fair value of earnout liability, (vii) other income, net.

	Three months ended March 31,		
(in thousands)	2023	2022	
Net income	\$ 9,769	\$ 7,346	
Stock based compensation	2,246	918	
Depreciation and amortization	288	148	
Interest income	(3,014)	(1,833)	
Change in fair value of derivative	(760)	834	
Change in fair value of warrants liability	(6,766)	1,774	
Change in fair value of earnout liability	(12,872)	(15,227)	
Other income, net	1,368	(450)	
Adjusted EBITDA	\$ (9,741)	\$ (6,490)
